4117 INCLUDED THE GENERAL LETTER BELOW

"I live in Jackson County, and am concerned about the current state of affairs relative to community safety, fires, criminal activities, hard drug use, general refuse and human waste on the Bear Creek Greenway. I support the City of Medford Town Council and Jackson County Board of Commissioners passing new ordinances or strengthening existing laws to support enforcement of no camping laws within the Medford City limits and County borders. Please move forward in helping people currently camping on the Greenway find available services and enforce no camping policies so the Greenway can recover and be used by all local citizens and visitors again."
